Private Label / OEM

As an industry leader in wigs, hair extensions, and eyelashes manufacturing, PT Bio Takara can support new project development. With many years of experience in providing Private Label / OEM services, we have the resources and knowledge to achieve your project objectives.

Our Private Label / OEM Services include the following:

Custom Design

Our expert in-house design house provide design/style solutions that suit your needs. You can choose from our pre-made designs/styles or we can create entirely new products based on your concept or imagination.

Custom Packaging

You can provide your own packaging design or UPC barcodes and we will use this to package your orders.

Communication

is the key to the success of any project

Our Private Label / services usually consists of the following steps:

Customer contacts us regarding the product and styles needed. ■

Our design house will customize a solution that will meet or exceed customer's expectation in quality and cost-effectiveness. ■

We will send the pre-production samples to the customer for review and comments. If necessary, sampling process will continue until the customer is satisfied with the design. Upon approval, customer gives us the order.

Customer's order will be put into production immediately and will be delivered according to the agreed shipping method and estimated completion time. ■

Any of the products shown on our website are available for private label.

PT Bio Takara provides you with a turnkey program on getting started. With a wide variety of materials, colors and designs, we can customize to fit your needs. It is as simple as picking out one of the wigs, hair extensions, and eyelashes from our website. We'll take care of the rest. With low minimum order requirements, having your company logo on the product is quite affordable.
